Dear neighbors, business owners, policy makers, and city employees,

My neighborhood is a public toilet thanks to the Greater West Hollywood Food Coalition's founders Ted and Penny Landreth.

Their poorly executed humanitarian effort is making my home and neighborhood a disgusting place to live.

I love my home, don't let one group ruin it for another 26 years!

What we have here is a "Watering Hole Effect," in the area surrounding the nightly food giveaway on Romaine and Sycamore.

Hundreds of transients have taken up residence in my neighborhood to be close to the food that Ted Landreth and Penny Landreth dole out every day.

This food line has inflicted real and presentable damage on the people of this community

The GWHFC refuses to comply with the wishes of the neighborhood and so they must be forced out

I live one block from "ground zero" making my home a target for transients, drug addicts, meth injectors, heroine users, squatters and the criminally insane.

After years of no compliance, I have lost all patience for the posturing of this group.

I have been writing letters to the supporters of the food line to tell them our side of the story, and if you think your voice doesn't matter THINK AGAIN!

We are making progress!

The La Brea Bakery have given the food line 15 years of support and have now suspended donations based on community outcry!!!!

I know we can muster this community, I know we can rally massive support for this.

Ted Landreth wrote me a letter a few days ago saying he was "going to Washington!" I would like to urge you to do something action oriented to help this community now.

Please stand up for this community and it's children.

Before Ted and Penny Landreth gang up on us with lawyers and celebrities, let us organize and hit them harder.....

WHAT CAN I DO?

WE ARE READY to organize the neighborhood to force the food line supporters to relocate immediately.

I need 2000plus flyers and ten people for a few afternoons.

We will canvas the neighborhood and spread the word.

I need help paying for the materials to educate the neighborhood about this.

3/26/2015 City of Los Angeles Mail - Illegal food line creates "Watering Hole Effect," neighborhood suffers from transient invasion. COMMUNITY ACTION NOW!  
Design assistance, and people to help me canvass the community.

I want to hit and highlight these issues about the food line in a flyer to be disseminated to the community:

#### HEALTH

The sanitation issues the line creates are clear and presentable. Feces, urine, vomit, comatose transients block the sidewalks and drug paraphernalia litter the street. The health concerns are unmistakable and obvious.

#### SAFETY

The presence of drugged, drunken, and psychotic people who roam our small neighborhood continuously is a direct byproduct of the line's nightly activity. We are afraid to let our kids play outside based on the concentration of transients and squatters here. They present a clear safety hazard based on their connection with recent incidence of murderer, stabbing, and other mayhem.

#### RELOCATION

Highlight the fact that Ted Landreth has refused every offer of relocation and had threatened to sue individual homeowners with his big time lawyers. Ted has been asked to relocate over and over again and now the time has come to force his relocation by community outreach, community action, and community outcry.

If you want to write some letters or make some phone calls then please do this....

Contact all the supporters of, and donators to the GWHFC and tell them..... **we don't like it!!!!!!**  
Write and call any organization or individual that gives its support to the GWHFC and tell them **NO MORE!!!**  
Write **LOUD AND CLEAR** messages to the groups that support the GWHFC and tell those groups we are organizing  
**COMMUNITY ACTION.**

**THIS IS NO JOKE. WE MUST BEGIN TO SPEAK OF CLEARLY,  
AND THREATEN COMMUNITY ACTION  
RE: ALL DONORS AND SUPPORTERS OF THE FOOD LINE.**

Here are three ideas for your letter writing and calling:

Please write to, call and Urge;

Saint Victor's Church in West Hollywood (huge financial support) [info@saintvictor.org](mailto:info@saintvictor.org)

The West Hollywood Center for Early Education (financial support) 323.651.0707 Main Telephone 323.651.0860  
Main FAX

Opamp Books (supports financially and sometimes provides their property for feeding) CALL LYN  
MON-FRI (323) 464-4322

call every supporter of the GWHFC and tell them "we demand security and sanitary living conditions for us and our children!"

We work hard to afford to live in a safe environment, **we can** force this group to relocate, **we can** organize and seek judicial intervention if necessary.

\*\*\*\*A huge thank you to Mr. Tom Labonge and the Nightly News for standing up for us by saying out loud and on TV that the situation is unsanitary, undignified, and they "NEED A BUILDING." - Thank you Tom Labonge!!

**We need volunteers and donations for materials !!!!!!!**

If anyone wants to help, please get in touch with me

It's time we took back our neighborhood

Please join me in some healthy community action next week!

Onward, and upwards!
